

Fluidbusiness Group.

Introduction. Year 2010, March

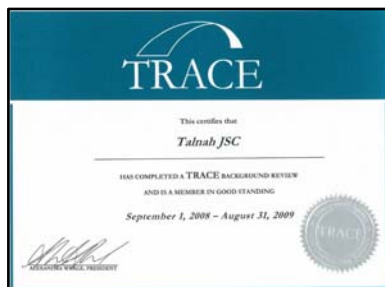

Fluidbusiness Group was established in 2006 on base of Talnakh - Group of Industrial Russia and CIS plants.

The main Fluidbusiness Group business line is sales of ITT Fluid Technology pumps on base of hydraulic knowledge, focusing on customer needs and service and technical support.

Our target is development of wide distributor and service network to become the strongest industrial pump supplier in Russia and CIS and provide high support for key customers.

On year 2008 Fluidbusiness received Trace certificate as part of Talnakh Group and sign distributor agreement with ITT Fluid Technology and on 2009 year we received trace certificate as independent Fluid Business company

- Our **MISSION** is professional sales of high-quality **PUMPS** on base of high grade technical knowledge and focusing on customer needs, based on openness and honesty principals
- Our **VISION** – to justify cusomer confidence by using all our knowledge, experience and providing effective support for customer based on close cooperation and mutual collaboration with ITT.

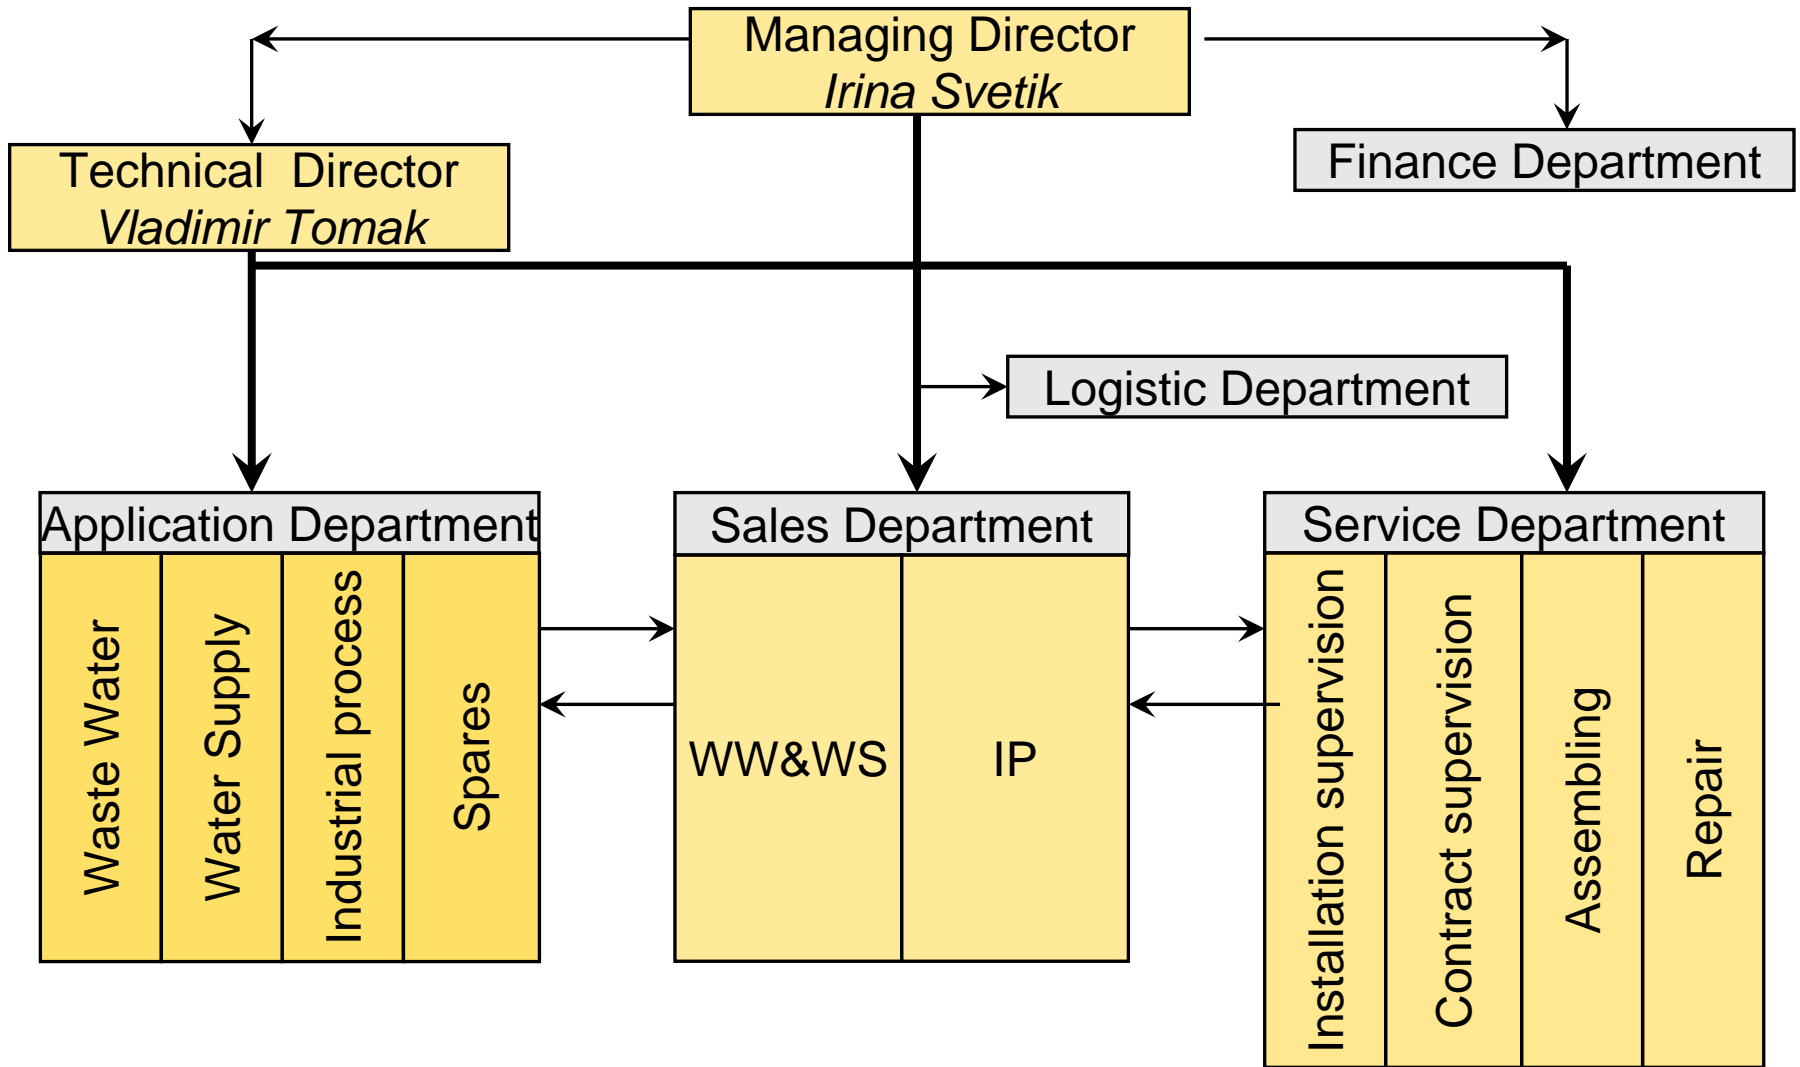

Our VALUES

Expertise – we provide reliable solutions on base of our expertise and business ethics

Efficiency - we provide most efficient solution from point of view investments, power inputs, delivery time and serviceability based on the best ITT engineerings

Reliability – we provide only reliable pump equipment, based on our and customer's experience.

DOSING & HOMOGENIZERS

Dosing and High pressure pumps and Dosing Systems producer.

Custom made dosing systems on base of Alldos, Prominent and Grundfos dosing pumps

FOUNDRY ENGINEERING

Iron castings, non-ferrous castings, forged products from rolling metal, machine parts, cast-iron castings

CRUSHERS & GRINDERS

Grinders, Sorters, Filters, Separators, Cyclone collectors, Grates, Paint grinders

TURNKEY CONSTRUCTION

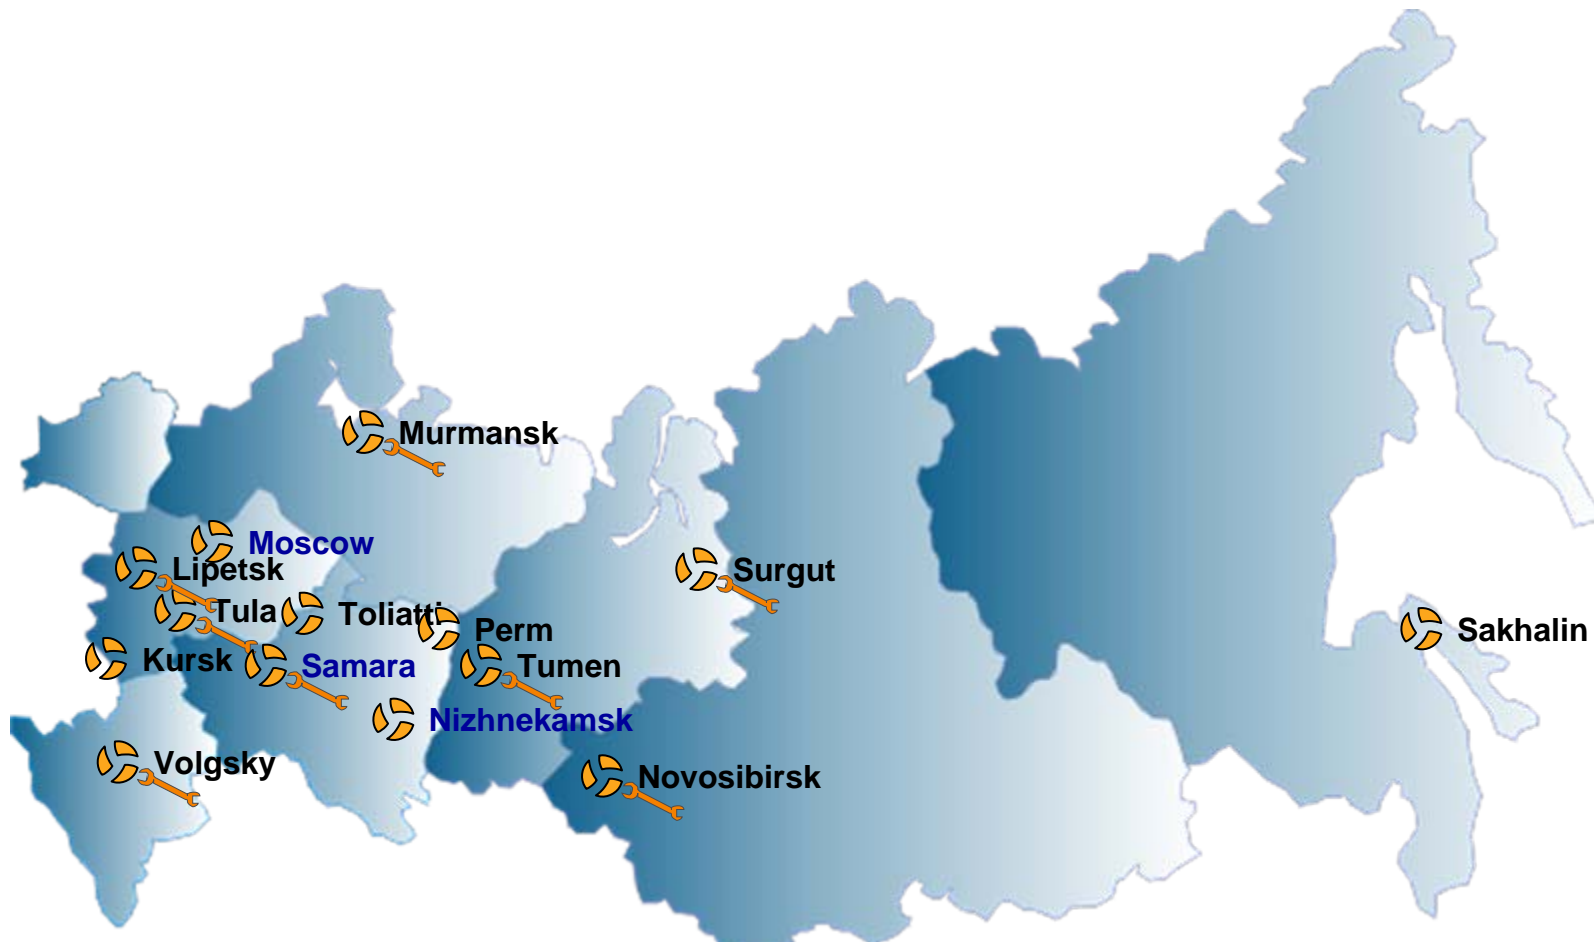

Full range of engineering building and construction works – from project to substantial completion and follow-up

FLUID BUSINESS

Distributor of ITT- Fluid Technology

Pumps, pump systems, parts, Technical and service support. Individual projects for OEM customers

In plan for 1-st half of 2010 year – foundation new service facility in Sakhalin

2-nd half of 2010 – start full equipped service centers in Samara and Tula for all ITT range

Year 2007: Supply ITT Goulds pumps Models 3700, 250 kW
& Model 3620, 132 kW

Year 2008: Supply ITT Flygt pumps Model 3153, 680 kW

Year 2008: Supply ITT Goulds pumps Model VIT-FF, 1350 kW

Year 2009: Delivery ITT Flygt pumps Models 2400, 2620,
2250, 2201, 2075, 2670, 3123 and spares

Year 2010: organizing the service facility near Apatit

Year 2010: damage evaluation of service case with Flygt
3351, 500 kW

Year 2010: work on project with process pumps

Year 2006: Supply ITT Flygt pumps Model 3171

Year 2007: Supply ITT Vogel pumps Model LC

Year 2008: Supply ITT Goulds pumps Model 3196 and Spares

Year 2009: Supply ITT Goulds Model 3642, 3556

Year 2010: new projects Pumps stations with ITT Flygt pumps

Year 2010: new projects with ITT Goulds pumps 3600,
3700,3910

Year 2008: Supply ITT Goulds pumps Model 3171, 3700, IC

Year 2009: Supply ITT Goulds pumps Model 3171, 3910, 3700

Year 2010: Supply ITT Goulds pumps Model 3700, 3620

Year 2010: new projects Pumps stations with ITT Flygt pumps,
upgrade Goulds pump Model

We provide our customers following documentation in Russian based on Russian GOST standards:

- Technical passports
- Instructions for pumps and all additional equipment (seals, sensors, motors and so on)
- Sectional and outline drawings
- Testing reports

All translation made by skilled technical and come through engineers for additional corrections

Supporting end customers during their direct contracts with ITT-Fluid Technology by providing all need Documentation in Russian and service support is a part of our daily operation
